Teaming for Success

As we begin the journey into the new school year and our transition into this next phase, we are reminded of how quickly life can change. Our resilience and ability to adapt to unprecedented times has certainly been put to the test over the last 18 months.

- ❑ The Lessons we have learned and challenges we have met have prepared us for the next phase of our journey which lies before us.
- ❑ Brick Schools is excited to Welcome Back to District all of our Students & Staff In-Person, 5 Full Days, Full Year for the 2022-2023 School Year!
- ❑ However, we need to be mindful of the lessons learned, and therefore we ask our staff, students, and families to have plans in place to be able to adapt to any change which may occur as we journey through this transitions together and be ready to move to hybrid or full remote instruction.
- ❑ Remember to all devices are to go home with students and staff each day and return to school the next day fully charged. This will help all members of our learning community to be prepared in the event that full remote learning needs to be implemented.

Moving forward, the District continues to be focused on health and safety while delivering inclusive and equitable high-quality instruction. The 2022-2023 school year focus is on the academic, social, and emotional strategies to assist students, staff, and parents working together to transition back into our learning communities. Successful implementation of our plan is dependent on a shared responsibility and diligence of each member of our community to work together as a unified school district in response to the ever-changing circumstances and guidance.

Thank you for your continued support and commitment to Brick Schools!

Dr. Thomas Farrell
Superintendent of Schools
